

“ *Here’s to paving a bright future* ”

First off, we would like to thank you all for paving the way to a bright future for our family. It’s been almost a year since we’ve arrived at our final destination, Adelaide City, Australia and we are still in disbelief that we have finally arrived here. Although there were minor setback and the process took time, you guys worked your hardest to keep us on track and keep the process going until the final requirement was met. Although all these challenges were faced, we overcame these challenges with the help from you guys. We hope that you will be with us throughout our whole exhilarating journey.

A special thanks goes to: **Hirosh, Dilu and Judy** for sticking by our side from the mere beginnings of our journey and to the delightful end. Although we had some minor disagreements and arguments throughout our process, these things helped strengthen your support towards us and towards the success of the process. We thank you all for giving us this opportunity to carry out the rest of our lives in bliss and happiness.

We wish you all the very best individually and as a group. We hope we may be able to keep in touch with you all for any future requirements.

Thank you

Mahinda, Shashi and Menuka (Jayaratne)
